

Manufacturer of technically advanced
flashlights and watertight
protector cases

Medium Lights

#2400 STEALTHLITE™

Stealthlite™ is made of unbreakable corrosion proof ABS body and hi-impact polycarbonate lens. Its Laser Spot Xenon™ Lamp module gives an extremely bright, white beam, which can cut through water, smoke, fog and rain making it a perfect light source for all applications. It is a highly recommended flashlight to be used within industrial and fire applications because it is very powerful, light weight and attachable to any work helmet (see complete range of Pelican adaptors). The StealthLite™ has a one handed on/off locking switch plus a heavy-duty lanyard. It includes 4AA cell Alkaline batteries and is water resistant (not for diving applications). It is ATEX, FM, CSA, MSHA and UL approved. Unconditionally Guaranteed... forever.
